

Potty frame

Low frame for shower or potty training. Suitable for R82 Flamingo seat size 1 and 2.

The potty frame is an accessory to the Flamingo seat, which provides several more uses for the already highly adaptable Flamingo. Simply mount our existing Flamingo seat on the potty frame and it can be used as a freestanding device for potty training or bathtime fun. The inlay of the seat is available in both grey and blue and provides comfort for the user while the small size makes it fit into almost every bathing situation or room.

Suctions cups

The Flamingo seat can be mounted in the bathtub by using suctions cups, opening up new possibilities for rich bathing experiences, where the child can explore, play and be surrounded by water. *Suction cups require holders for commode pan and potty rings to be mounted.

Fitting for toilet mounting

For mounting the Flamingo seat on an ordinary toilet

Wider Seat Upholstery, with sides

For comfort and reduced seat width - also making the standard hole narrower.

Sides with upholstery

Provide moderate torso control and positioning. Available in grey or blue.

Back extension

Increase the backrest height with 10 cm.

&

Rod for mounting back extension

Back reinforcement kit

For locking the back recline on size 3 and 4

Armrests

Provides arm support. Cannot be used together with sides for back or Swing-away armrest/tray.

Swing-away armrest/tray

Provides upper arm support and swings away for transfer

Seat infill

For covering the opening in the seat. Available in grey or blue.

Not compatible with inlay with wide sides.

Splash guard, low

Provides easy access to the seat for users or situation where a high splash guard is not warranted.

Potty ring

For use over the toilet. Can be used on both the Flamingo and Flamingo High-low

Commode pan

A commode pan helps to create a flexible and convenient toileting solution.

Lid for commode pan

The lid is used to cover the content of the commode pan. It retains odors and decreases the risk of spillage.

Push brace

Provides a secure point to maneuver the chair.

Castors

Lockable castors, set of 4 pcs. For safety and stable transfers.

Support rod kit

For increased strength in the seat tilt function.

Curved head support

The curved head support is covered with PU and is slightly curved from the midline to the sides, primarily providing support to the back of the head. It is suitable for users who need temporary support or require to be supported in a tilted position.

Size Guide

Small or medium

 Configurable product. Please contact us to find the head support that fits your child's needs.
